Phone 021 323 695

Email jlongdinprisk@yahoo.com

Jules Longdin-Prisk is the owner/ operator of Sure Shot Technologies LTD - A company supplying Video Assist and DIT services and equipment to NZ TVC productions.

Sure Shot Tech has a comprehensive inventory of video equipment. From the latest super bright outdoor viewable monitors to trick long range video transmitters and all the other gadgets you might need to record or display a live image in even the most challenging scenarios.

Sure Shot Tech's video playback system is a highly mobile QTAKE recording rig. The industry standard QTAKE system offers all of the mix and overlay tricknology and on-site editing and logging necessary to assist the most complicated visual or thematic treatments.

As a DIT Jules is an industry leader in multi location data offload and transcoding. And for this purpose Sure Shot Tech customised a battery powered vehicle-based system that allows data back up and other DIT tasks to continue between locations. This system has proven both reliable and popular, particularly with producers who appreciate the time saving benefit.

With over 15 years experience in film and television production. Jules is technically adept and gets the job done with friendly efficiency.
