

ROYCE DAWSON

I have worked on over 200 projects on TVC, Stills, Films and Dramas in various roles. I have a reasonable understanding of the process through pre production, shooting and post production. My sociable nature has allowed me to meet a lot of the crew and learn of the skills they possess. Ultimately, this helps to reduce the time it takes to source gear, props and services for most departments. Because I can cross over to different roles it means that I am very competent.
