# David Peterson

Production Sound Mixer / Boom Operator

Am an Auckland based sound recordist who has worked across New Zealand, and Australia too.

From large scale Multi Camera Productions to small Run & Gun Crews, I can adapt and do it all. I live and breathe production sound, and am always looking forward to my next project, to capture the very best dialogue.

Have worked with nearly every camera on the market (including: ARRI Alexa Mini LF / Amira / Alexa SXT / Alexa Mini, RED DSMC2 bodies, Sony VENICE / FX9 / F55 / F5 / FS7, Canon C300mk2, & Panasonic Varicam LT / EVA1. Even Super 35mm cameras! Yes, they're still getting used), and know how to properly set them up to receive external audio & timecode. So Camera Dept, Sound Dept, and Post are all working together as one.

When I've got downtime and not capturing the essences of actors' performances on film sets, then in my spare time I'm a keen Chess/Poker/Wéiqí player and a lifelong endurance sports fanatic. (Ironman Triathlons / Marathons / K2 Bike Race / 100km Trailwalk / & more)

## **EQUIPMENT:**

(partial list, complete list for insurance or carnet purposes is available on request)
