Summary:

For the last 12 years I've been actively employed in film and TV production, commercials and event management. Working in countries such as India, Kazakhstan, Russia, Ukraine, Malaysia and Europe gave me a lot of experience with heavy weather conditions sets, as well as solving production situations in different languages and cultural aspects.

My "home-base" is the AD team, communication, punctuality, time-management and set-running, my default settings. In the past few years I have been working as Assistant Stunt Coordinator. Which gave me opportunity to learn how to work on a high action packed set, never braking the "safety first" rule.

Education

Moscow State University of Arts and Culture,

Faculty of stage direction.
