- Natural Leader

## REFEREES

### Producer:

Alice Harris (022 034 6679)

### Director:

Moira Powell (021 676 060)

## PROFESSIONAL PROFILE

The basis of my learning in the camera department has been in reality TV camera operating / camera assisting and live sport camera operating, (Hockey, Rugby, Touch Rugby, Athletics, Baseball, Waterpolo, Surfing, Swimming & Golf). I have worked in all camera positions around the field and I am comfortable in a multi camera live environment, making me an adaptable and efficient worker on set.

I have experience operating the **Arri Amira, Arri Mini, Canon C300 Mark I, Canon C300 Mark II, Lumix S1H, Sony FS5, Sony X70 & Z90, Lumix GH5, GoPro's, Osmo's and the DJI Mavic 2 Drone**. When it comes to adapting to new equipment I am a quick learner and pay very close attention to all safety methods.

Past work has given me confidence to assemble and rig the Arri Amira and C300 cameras along with **dolly's, dolly's, scissor crane's, jib arm, gimbals (DJI RS, DJI Ronin 2)** and underwater / **action camera mounts** on location and in studio. Along with other assistants I assembled the 9 camera set up with wireless teradeks, rigged video village and operated cameras for outdoor interview set ups and actuality on The Bachelor. As an assistant at Warner Brother's I was also given the opportunity to operate cameras and crane arms for well established franchises meaning I had to mirror existing movements and shots to fit the style. Other projects have diversified my skills by giving me the freedom to shoot b roll, time-lapses, and establishing shots.

My broad range of skills and passion for camera makes me an asset in the camera department and on set. A opportunity to commit to a longer term project and grow my knowledge would be the best fit for me and my current ability.

## CAREER HISTORY

Year	Role	Production	Channel / Company
