My name is Holly Subritzky. Due to my family I have been lucky enough to grow up immersed in the Film Industry from a young age. In the last five years I have been a part of various productions in several different departments as stated below. I have both on and offset experience and feel completely comfortable in both environments. I spent part of last year working on Amazon's Lord of the Rings series as an assist in the weapons department. I also spent time working with the props and set dec department. I am now looking for any art department work Auckland or Wellington based. I have a full clean New Zealand drivers license and am fully capable of driving utes, vans, and manual vehicles.

Work Experience

Weapons Assistant – Amazon's Lord of the Rings

Dressing weapons and rigs on extras & horses, set dressing weapons, painting/colour matching weapons and rigs, stock taking and tracking weapons, basic leather work, running and buying supplies, digital categorizing and itemizing weapons, props, and general equipment etc., using q take to check and maintain continuity, checking and adjusting weapons and rigs in between takes.
